

In March, the Georgia Poison Center handled 9558 calls, of which 7003 calls were related to human exposures, 641 calls related to animal exposures and 1914 calls were related to general poison information.

The specialized staff at the Georgia Poison Center was able to effectively triage 84% of calls that were received from the general public at the site of exposure without referral to a health care facility by providing simple first aid instructions over the phone.
